QUICK-CONNECT TRI-CLAMP Process Connection for TrueCap® RF Capacitance Level Sensors

- ▼ Quick connect and disconnect...Provides easy installation and easy removal of the TrueCap® unit for cleaning purposes.
- ▼ Affordable solution for general sanitation situations not requiring 3-A® Rating.
- ▼ No exposed threads.
- ▼ Available for Monitor's TrueCap® MK-2 and MK-2e RF Capacitance level sensors. (integral and remote configurations; ordinary location only.)
- ▼ Available for Ryton® and Nylon (food grade) versions of the standard and stub probes.

- ▼ Accommodates both a 1" and 1-1/2" ferrule size.
- ▼ Clamp and ferrule are stainless steel construction. Gasket is constructed of Viton®.

▼ **Accessories listed below are ordered as separate items in addition to the TrueCap® sensor.**
